

Envoy

Screen appears at the touch of a switch, invisible when not in use.

Ceiling panel closes automatically.

Designed for conference and meeting rooms, executive facilities and training centers.

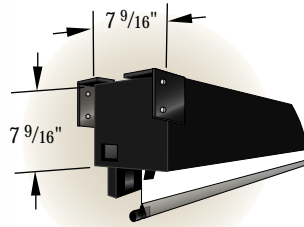

Photo: Carmel Clay Public Library Program Room, Carmel, IN. Installation includes ELECTRAMOUNT projector lift and FLEXSHADE DUAL ROLLER SYSTEM for glare control and room darkening.

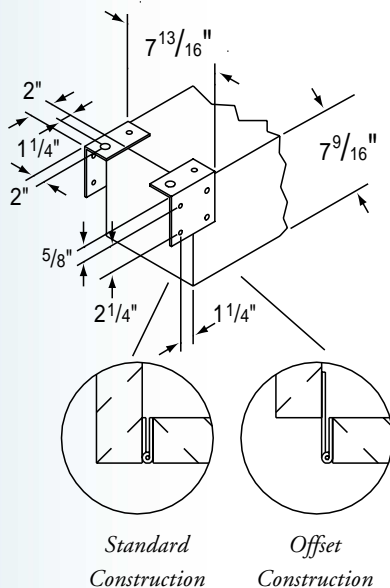

The ENVOY adds a touch of class to any audiovisual presentation. The screen is recessed in the ceiling and invisible when not in use. At the touch of a switch an automatic ceiling closure opens and the screen appears. Reverse the switch and the screen disappears from sight. The ceiling closure can easily be finished to match the ceiling.

The ENVOY operates smoothly and silently, even after years of service. The motor is mounted inside the roller on special vibration insulators. The screen's slender profile makes it easy to install above most ceilings.

Choose from fiberglass matt white, glass beaded, or optional PANAMAX viewing surface. Includes one 3-position control switch. Optional controls are additional.

Optional Equipment

- **Extra Drop**—Up to 12' overall height, either white or black (White is standard for AV format, black for other formats).
- **Black Masking Borders**—Borders are standard on Video, HDTV, and WideScreen format screens. Available by request on AV format screens.
- **Control Options**—Refer to our "Control Options" PDF.
